

## BAY COUNTY CONSERVANCY VOLUNTEER JOB

### PROPERTY MONITOR

Need: Set up photo points and shoot annual or seasonal pictures to record changes in the property.

1. Choose one or more properties to monitor.
2. Get copies of survey and other site information from management leader.
3. Visit the site with management leader and choose at least one logical point from which to shoot periodic photos that would show possible changes in vegetation and use of the property.
4. Mark the photo point on the map or survey.
5. Keep a file of the photos and the dates they were taken.
